

CONSTRUCTION MAINTENANCE AND ALLIED WORKERS CANADA

CMAW IS THE NEW UNION IN INDUSTRIAL HEAVY CONSTRUCTION. CMAW works in the oil, gas and chemical industries. We build and maintain dams, mines, refineries, and pulp and paper mills. Our members are productive, knowledgeable, trained and able to work safely. CMAW is a Canada-wide construction union. We know that highly skilled workers can make or break a project; we have the outstanding tradespeople to make your project a success.

We have completed hundreds of industrial projects on time and on budget. CMAW - the Construction, Maintenance and Allied Workers Union of Canada - represents more than 7,000 tradespeople in Western Canada with more than 140 affiliated contractors and other service providers.

We provide top-notch training programs, we self-administer low cost benefit and pension plans, and we enjoy a great relationship with owners and contractors.

With more than \$60 billion in construction projected for the LNG industry in British Columbia in the next decade.

You only need to call CMAW to secure the skilled tradespeople you require.

*CMAW is the only
call when you need
highly skilled workers
in Canada*
